

SOLID-STATE IMO TYPE APPROVED RADAR KRS Series

KODEN

The Next Evolution in Offshore Situational Awareness

The Koden KRS Series radar uses solid-state radar technology to deliver exceptional resolution and detection capabilities. IMO compliant and type-approved for CAT 2 / CAT 3 SOLAS vessels up to 10,000 tons.

Installation

Designed for ease of installation. Half the weight of comparable radars with small diameter cables for reduced installation time.

Crystal Clear Returns

Koden's new solid-state technology provides exceptional image clarity in the most demanding situations using an intuitive user interface.

Built to Last

The KRS solid-state radar transmitter requires less maintenance leading to less downtime and significantly lower operating costs over the lifetime of the radar.

Minimal Start to Transmit Time

The KRS radar is ready to go when you are.
Turn on and instantly transmit without the warm-up delay found on magnetron radars.

New Innovative Design

The low-profile display is both modern and eye catching looking good on any ships bridge.
The 6 feet antenna is a sleek, fan-less design built to withstand nature's elements.
